CAREER OBJECTIVE

Computer Technology student with hands-on experience in developing full-stack web applications using React.js, Flask, Node.js, Express.js, MySQL, and MongoDB. Strong problem-solving and programming skills with experience building real-world academic and internship projects. Seeking an entry-level Software Developer, Front-End Developer, Back-End Developer, or QA Tester role where I can contribute, learn, and grow.

TECHNICAL SKILLS

Programming Languages: Python, Java , JavaScript , CSS , React.js , SQL
Tools: GitHub, VS Code, MySQL, MongoDB
Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Analytical Thinking, Quick Learning

INTERNSHIP

Hazzrino Technologies Theni
MERN Stack Development Intern May 2026

- Completed a one-month offline internship in MERN Stack Development.
- Gained hands-on experience with MongoDB, Express.js, React.js, and Node.js.
- Contributed to web application development while strengthening full-stack development and problem-solving skills.

PROJECT

1. Online Food Ordering System 2026
Technologies Used: HTML, CSS, JavaScript, Python, Flask, Flask-Bcrypt, MySQL

- Engineered a full-stack food ordering system with secure user authentication and order management.
- Implemented password hashing, shopping cart functionality, and MySQL database integration.

2. WeConcert Ticket Booking System 2026
Technologies Used: React.js, JavaScript, HTML, CSS, React Router DOM, QRCode React, jsPDF, html2canvas

- Built a React-based concert ticket booking application with seat selection and QR code generation.
- Enabled PDF ticket downloads and local storage for booking management.

3. AI-Powered Precise Train Traffic Control System 2026
Technologies Used: Python, HTML, CSS, JavaScript, MySQL

- Designed an AI-powered train traffic control system to improve traffic management and safety.
- Applied database and algorithm concepts for route optimization.

4. Event Organizer System 2025
Technologies Used: MongoDB, Express.js, React.js, Node.js, Google Maps API

- Developed a MERN-based event management application for organizing events and venues.
- Integrated Google Maps API to support venue location and event planning

5. Student Mark Management System 2025
Technologies Used: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Created a web application to manage student records using CRUD operations.
- Implemented database integration for efficient academic record management.

EDUCATION

Senior Secondary 2024 - 2027
Velammal Vidyalaya Theni
Percentage : 70.83

Bachelor of Computer Technology 2023 - Pursuing
KG college of arts and science Coimbatore
Percentage : 80.05

CERTIFICATES

- Data Structures using C 2025
- React JS Advanced Concepts & Application Development 2025
- Advanced JavaScript 2026
- JavaScript Essentials for Beginners 2026
- Deployment and DevOps 2026
- Microsoft Cybersecurity Analyst 2025
- Microsoft Azure Data Fundamentals 2026
